VILLA EXTERIORS

Grand designs in a green haven

With a choice of two distinct designs, each of the 32 villas is a masterpiece of organic architecture. Grand in scale, with a harmonious balance of indoor-outdoor living, these refined homes are surrounded by greenery in a quiet setting with open views. Perfectly landscaped private gardens and terraces are integral to each design, featuring private swimming pools and spaces for year-round activities and moments of celebrations with friends and family.

Screened and shaded balconies, and in the villas, extensive lush gardens, emphasize the excellence of the designs. Each of these elements has been beautifully integrated with the finest natural materials to create a coherent design template across the entire development.

The background of the image is a light gray, textured wall. On the left side, there is a large, dense cluster of long, thin, green and brown blades, possibly palm fronds or grass, which are slightly out of focus. The blades have a sharp, pointed appearance. In the bottom right corner, there are dark, elongated shadows cast by the blades, suggesting a light source from the upper left. The overall composition is minimalist and modern.
